

## PPA 905 Interface switch 12V

Article number (SKU) 7099054  
Colour Silver

The 12V interface switch is a switcher based on a relay that drives the opening and the closing of the projector lifts (PPL 2035, PPL 2035-120V, PPL 2100, PPL 2100-120V, PPL 2170 and PPL 2170-120V). It can be used with video-projectors, amplifiers or home theatre decoders that have an output of 12 Volt DC.

If you install a 12 Volt interface you cannot use neither a remote control nor a switcher in order to switch on/off the projector lift.
