SAVA 1031 Smart AV converter COAX to TOS

Article number (SKU)	8310313
Colour	ANTHRACITE METAL.
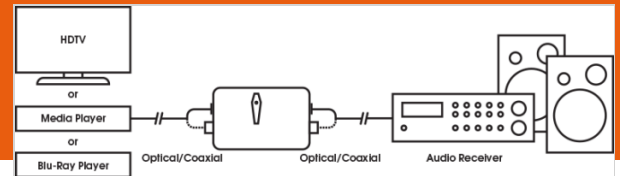

Converts Toslink to coax and vice versa

The SAVA 1031 is used to convert from optical to coaxial or from coaxial to optical audio signals. Suitable for the most common 2 to 5.1 channel digital audio signals.

Connect old and new devices to each other with the smart solutions from Vogel's

Are the connections on your AV equipment incompatible with each other? But is your equipment not yet in need of replacement, or is vintage equipment your style? The smart solutions from Vogel's are the answer. The SAVA series consists of products that can be used to connect or expand (older) devices with new technologies. For example, wireless connections can be enabled or analogue connections can be converted to digital. Get more enjoyment from your valuable AV equipment and make it compatible!

The Quality Signature

When you purchase one of Vogel's SAVA products, you are always guaranteed quality and innovation. Smart and sustainable products that do what they are supposed to do. As part of Vogel's 'Quality Signature', you can always count on: reliability, design, innovation, ease of use and ease of installation.
