

SAVA 1041 Smart AV converter digital / stereo

Article number (SKU) 8310413
Colour ANTHRACITE METAL.

Connects new and old connections

The SAVA 1041 makes it possible to connect AV devices with a Toslink or Coaxial output to an RCA input. With improved 192kHz sample rate for the best audio quality. Supports uncompressed digital stereo signals.

Connect old and new devices to each other with the smart solutions from Vogel's

Are the connections on your AV equipment incompatible with each other? But is your equipment not yet in need of replacement, or is vintage equipment your style? The smart solutions from Vogel's are the answer. The SAVA series consists of products that can be used to connect or expand (older) devices with new technologies. For example, wireless connections can be enabled or analogue connections can be converted to digital. Get more enjoyment from your valuable AV equipment and make it compatible!

The Quality Signature

When you purchase one of Vogel's SAVA products, you are always guaranteed quality and innovation. Smart and sustainable products that do what they are supposed to do. As part of Vogel's 'Quality Signature', you can always count on: reliability, design, innovation, ease of use and ease of installation.
